

# 2014

## ORGANIC MARLBOROUGH SAUVIGNON BLANC

### How it tastes

Refreshingly good! This is a classic Marlborough Sauvignon Blanc with all those pungent flavours you would expect. The nose delights with aromas of tropical fruits and dried herbs. This continues on the palate with further hints of passionfruit and citrus. All wrapped up in a luscious, crisp finish which makes you want to go back for another taste.

### Cellaring

At fridge temperature, for about 45 minutes.

### How we made it

This is our first vintage of Matua Organic Sauvignon Blanc, sourced from a single vineyard in the Wairau Valley. The grapes were harvested in smaller parcels and separated from the skins before pressing and cool fermentation in stainless steel tanks, using a variety of different yeasts to create several distinct styles. This gave our winemakers different profiles to blend together, creating this elegant, layered and oh so delicious wine for you to enjoy.
